Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, bowels, liver, and bowels. They are a mild, aperient, and almost entirely purgative. Being justly recommended, they contain no mercury or other dangerous ingredient whatever. Much serious sickness and suffering is prevented by their timely use, and every family should have them on hand for their protection and relief, when required. Long experience has proven them to be the safest, surest, and best of all the *Pills* now in the market abroad. By their occasional use, the blood is purified, the circulation of the system expelled, obstructions removed, and the whole machinery of life rendered more vigorous and healthy. Internal organs which become clogged with bile, and other morbid humors, are

circulated into action. This frequent desire to move about, and the restlessness which is often experienced when reckoned on the vast multitudes who enjoy the benefits of this medicine, can hardly be considered as a defect. It is a sign of the vigor of the system, and indicates that the organs are ready to take, and preserve their functions. It is a sign of the vigor of the system, and indicates that the organs are ready to take, and preserve their functions.

As a **Dinner Pill**, take one or two Pills before or after the meal, to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite and invigorates the system.

Hence it is often advantageous when no serious derangement exists. One who feels tolerably well, often finds that a course of the Pills makes him feel decidedly better, from the cleansing and renovating effect on the digestive apparatus.

HAIR PREPARATION

VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY or FALLING HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean.

It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigour, and will create a new growth, even in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "It

constituents are pure, and each carefully selected for excellent quality; and we consider it the BEST PREPARATION for its intended purposes."
